

Rains bring on smiles

Medina County residents had the widest and wettest grins in the West Saturday as they welcomed with open arms a general rain that ranged from three to nine inches over the county.

"These rains can be considered a tremendous asset," County Agent Glenn Bragg said Monday. "They mean the difference between a complete crop failure and a good

yield over the county."

Bragg pointed out that as a "Result of the rain, grain sorghum, broom corn and other field crops, which were suffering greatly from lack of moisture, probably received enough moisture to produce at least an average yield at harvest time."

The County Agent said that the sub-moisture obtained by the 1971 fall rains has

carried the crops thus far. "However," he said, "growers were beginning to wonder if another non-crop year was in store."

Following the rains, a few producers are planning to plant fields (that were too dry to plant in the spring) just as soon as they are dry enough. "Almost everyone is grinning and sighing with relief," Bragg said, "and

making plans for harvest in the near future."

Irrigation farmers have shut down their irrigation wells to rest before starting them again in about two weeks (unless more rain falls). "Most irrigation farmers have irrigated two to four times since planting," Bragg pointed out. "This rain will save them at least two irrigations for this crop year even

if it doesn't rain another inch."

Flies alive!

There are enough flies in these boxes to disrupt a thousand picnics, but they are not destined for that type of disruption. It is hoped they will be disruptive to the screwworm outbreak in Medina County. These are sterile flies, some 2,000,000 (that's right, two million) of them. They were hauled into Hondo Monday and distributed to livestock producers to be released on their land. Normally, these sterile flies are released by

plane, but this week the Mission planes could not get here so this system of distribution was organized. "We have had 44 known cases of screwworms in Medina County this year," County Agent Glenn Bragg said. "We are hoping this emergency program will help eradicate the screwworm." It took some time for Bragg and others to distribute the 1,000 boxes which contained 2,000 flies each.

NEW QUEEN

Crowned the new queen of Cinco de Mayo in Hondo last Friday night was Miss Rosa Vela, daughter of Mrs. Narcisca Vela. Queen Rosa raised \$516 for the big event sponsored by St. John's Catholic Church.

Houser takes County

Republicans in Medina County went 25 to 1 for Jerry Houser in the District 21 State Representative race Saturday.

But as of the last report to County Chairman Bruce Foster, the outcome of the race between Houser and Ann Primer of San Marcos was uncertain. "The last report I had showed Houser leading in a real close race," Foster said.

All 27 voters marked a vote for Sen. John Tower and Henry C. (Hank) Grover got the nod of 12 voters for Governor. Others received varied votes.

County Republicans voted 15-11 against Daylight Saving time on the referendum and 21-5 for a referendum prohibiting forced busing.

Concert, Boosters plans told

After a booming success last year, the Hondo Beginner Band will again present a Concert on Tuesday, May 16.

The Concert is scheduled for 7:30 p.m. in the McDowell Junior High School. Band members will include the 5th, 6th grades and St. John's.

Following the Concert, a Band Boosters meeting will be held at the School and all persons are urged to attend the Concert and stay for the meeting.

Wins first place

Tony Mendoza holds the first place plaque won by the Anvil Herald at the Region II Soil Conservation banquet in Crane May 4. He accepted the award in Crane for the Anvil Herald, which won recognition by "The Best Support Conservation of a Weekly Newspaper in Region II." The Regions covers 56 counties. Other winners from the Medina Valley Soil and Water Conservation District included: Nick Turner, 2nd place essay; and Charles Hood, of Yancey, Wildlife Conservationist. At the Crane banquet were Mr. and Mrs. E.L. Abbott, SCD Supervisor; Mr. and Mrs. Franklin Muenink, SCD board member; Mr. and Mrs. Tony Mendoza and Ted and Michael Mendoza.

Hitzfelder wins without runoff; Briscoe favored

Having their say in local, state and national government, approximately 5,451 Medina County residents went to the Democratic Primary polls Saturday and

cast a record number of ballots.

Locally, they put Sheriff Charles J. Hitzfelder back into office without a runoff, giving him more than 50 per

cent of the votes over opponents Alvin Santleben of LaCoste and Joe Pitre of Hondo. Hitzfelder drew 2,745 votes while Santleben had 1,819 and Pitre received

793. Allen C. Lee, a Devine attorney, received the nod for County Attorney over Albert Vance of Hondo. Lee received 2,778 votes to 2,180 by Vance.

Commissioner Precinct 1 voters voted 1,311 to return Fred Bader as their Commissioner. His opponent G.P. Chapman received 622.

Another local race saw Mary E. Ilse return to the position of Constable, Precinct 1 with 1,311 votes to Donald Muenink's 377.

The only runoff in the county will be in Constable Precinct 5 where H. H. Rabe will face Leroy Eardley. Rabe had 785 votes and Eardley had 486. Pete Ramos received 308.

Stepping up the ladder to State Representative District 45, county voters joined other district voters in giving Rep. John Poerner of Hondo a resounding victory over challenger Jim Green of San Marcos. In Medina County Poerner received 3,947 votes to Green's 1,071. District wide Poerner won by a 10,026 to 7,413 margin.

State Senatorial District 21 opponents John Traeger of Seguin and Oscar Carrillo of Benavides face a runoff. At last count Traeger was ahead of Carrillo by a slim margin of some 200 votes. Both received over 25,000 votes while a third candidate Honore Ligarde of Laredo was pulling some 21,000.

In Medina County the voting in that race ran: Traeger, 2,561; Carrillo, 1161; and Ligarde, 492.

On statewide votes, Medina County voters went for U.S. Senator -- Ralph Yarborough. Please turn to page 3

Lions plan sale

A big day is coming up Wednesday, May 17 for the Hondo Lions Club.

That will be the club's annual Broom Sale and Chairman Bill Green says everything is in readiness.

Lions will be downtown and in residential sections vying with some of the high school students to see who can sell more items. The students have outsold the Lions on two occasions.

To be offered are brooms, mops, dish towels, door mats and many other items, with a portion of the proceeds going to the local club.

Burglars hit here

Investigation is continuing on a break-in and burglary at Hermann Sons Steak House and Lodge Sunday night.

Chief Deputy Floyd Williams said Wednesday morning that the thieves entered the building by breaking a window pane and took money from the change box, money from the cigarette machine and took away a color television set.

Karen wins award

Karen Wernette, daughter of Mr. and Mrs. L. G. Wernette, received the John Philip Sousa Band Award at the Owl Band and McDowell Junior High Band Spring Concert held Thursday, May 4.

The certificate reads: "In recognition for outstanding achievement and interest in instrumental music, for singular merit in loyalty and cooperation and for displaying generally those high qualities of conduct which school instrumental music strives to impart, and by

nomination of fellow band members and confirmation of band director and school officials."

This marks the first year this award has been given. A large plaque will hang in the band hall with her name engraved on it. She received a certificate, a paper weight and a pin.

Karen is a senior and plays baritone in the Owl Band. She will be attending Sam Houston State College on a music scholarship this fall.

Museum Day turns out 'fine'

By EDNA McDADE

Take a May 5-6 weekend, include a good old-fashioned groundsoaking, crop-saving rain, a Cinco de Mayo Fiesta, a county-wide Museum Day fling, plus a mixture of 78 Democratic to 11 Republican candidates hoping to get elected with a chance to make good their campaign promises, and to describe the whole as never-a-dull-moment might cop the prize for the understatement of the year.

The proverbial good time was had by all and a mighty lot of folks were involved in the having of it. Election returns are now history and the wound-licking has not been enough to cause a run on liniment at the local drug stores. The final hatch-burying must await the June 3 run-offs and then we can start figuring out what we can do for an encore next Museum Day, May 5, 1973.

If some of the inevitable circumstances-beyond-control cut down a bit on what the Museum directors had hoped might be a record-breaking fund raiser, they feel the results justified the efforts of the many loyal supporters who came to the aid of their favorite community project and attention getter for our tourist trade which is steadily growing. The financial report appears elsewhere in this issue.

Here are some of the highlights and side lights of the M-Day celebration, transcribed from a rain-soaked note-

book which fell in one of the bridgeless moats that separated the extremes of activity as housed in the National Guard Armory and the Medina County Museum proper.

A threatened drought can do more to dampen a Medina Countyman's enthusiasm than most anything else. God's country claims agriculture as its leading industry and it takes time to keep it ahead. So, when the clouds gathered and the thunder roared and the lightning flashed, it was the consensus that the shows must go on.

By noon, prospects looked more promising and the Museum auction got off to its announced start with the crowds wedged indoors and everyone adjusting to the

spirit of the occasion. No record was kept of the number of bidders or of the hundreds of people who braved the elements to attend Museum Day. But a spirit of gay camaraderie prevailed and at least one man was singing "It's always fair weather when good fellows get together."

The rain did hamper the ladies in long skirts but, "so what's a wet hem?" said one, noting that the mini-skirted ones might have gotten wet knees.

The Owl Sweepstakes Band got the festivities off to a rollicking start and the audience showed their appreciation for Director Billy Harrell's dedication to his work. Please turn to page 3

It's a strange day when the President of the United States receives blame for taking a course of action and yet the arrogant, ruthless men who ordered 100,000 trained fighting men into a deliberate drive to conquer South Vietnam after he had been wound down receives no word of criticism in our country.

They must be kidding, but once again here goes: All monies raised for the Museum, i.e., Museum Day, contributions, sale of plates and sketches, sale of buttons, and memberships go to the benefit of the people of Medina County.

Everything goes into putting the old depot into shape so that it can be a show piece for local and area residents as well as tourists who love to visit museums.

No one, positively no one, receives any of the money. It's all poured back into the

Dear Burnis:

It was a pleasure to visit the Medina County Historical Museum and talk with you yesterday. I was very impressed with a number of things in the museum and was especially interested in your Museum Day project.

I was recently elected secretary of the Texas Museums Association and am trying to get that organization to publish a bi-monthly news letter containing information that would be useful to small community museums. As you know, a basic problem is fund-raising. I think that your Museum Day auction and the attendant publicity sets an example that could be profitably followed by other museums and it occurred to me after I left Hondo yesterday that I might be able to persuade you to contribute a short article to the newsletter explaining how much paid labor is used, etc. - a nuts-and-bolts explanation. I think this would be a great service to the other community museums in the state. If you could see your way clear to do this in say, a thousand words, and let me have it by May 20, I will forward it to the newsletter editor.

The large wooden chair that I pointed out in your storeroom was made in Quilhi, not D'Hanis (as I said), about 1800. There is a picture of a similar chair in Ralph and Terry Kovel, American Country Furniture (New York: Crown Publishers, 1965), p. 101. You should have a competent cabinetmaker take the gray paint off and replace the missing stretcher in back. Do not let him stain or "refinish" the natural wood, but rub it with a mixture of one part white vinegar, one part boiled linseed oil, and one part turpentine. Then have a rawhide seat put in it and

you will have a beautiful and unique artifact.

About meeting with your board of directors I will be happy to come as a consultant without fee as a contribution to the museum, but I would prefer to do this at their invitation - let them set the time and place. I am sure you will understand that I do not want to be in the position of offering unsolicited advice or of imposing myself on your museum.

Again, thank you for showing me around. It was a most enjoyable Sunday afternoon.

Cordially,
Lonn Taylor,
Curator

Dear Ms. McDade,

It was a real pleasure to meet you at Mary Meyer's lovely coffee yesterday, and I greatly enjoyed visiting Hondo. I was especially pleased by the interest and enthusiasm of so many of the ladies of Medina County who took the time to come and were so warm in their support of Bill's candidacy.

With sincere thanks,

Dear Mr. Lawrence:

Thank you for your letter of May 4. This is to confirm receipt of your entry. (In the Texas Industrial Week Contest) It looks like you had a good observance.

Judging will be held May 12. We will be in touch after that time. Thank you on behalf of TMA for your chamber's cooperation, support, and participation.

Yours sincerely,
Charles A. Costello, Sr.,
Director of Communications.

Dear Burnis,

I have put off writing this letter for some time. I felt that you and the paper had more important things on the fire than a letter from me.

Letters from the mailbox

On April 19, 1972 I attended the last in a series of short courses, which was given in San Antonio by the A & M extension of the Police Training Division from College Station under the leadership of Ira Scott and Ralph Benton. These courses were funded by the Criminal Justice Council.

Three of the Justices of the Peace who attended the courses were from Medina County: Judge Dan Ruempel from Castroville, Judge John Parma from LaCoste and myself.

We too often think of a Justice of the Peace as "that mean old so-and so who fined me for something that I didn't do." These courses were designed to up-grade the Justice courts and to inform each Judge of the importance of his duty. It is not only the duty of each Justice to hear every case that comes before him after a crime has been committed; but it is also his duty to prevent crime if at all possible.

The instructors for this course were numerous, but I will try to name some of them: Tom Bullington, Asst. Attorney Gen., spoke on the general aspects of the law

and the recent Attorney Gen. opinion.

Judge Jimmie Guiterrez, Justice of the Peace from Bexar County Pet 1 Place 1 brought a message on setting of bonds. Ralph Benton and Judge Billie Montgomery handled a panel discussion.

To me the high light of the course was a mock jury trial held by Judge John Forbes as Judge, with Judge Albert Lee as prosecuting attorney, Ira Scott as defense attorney. The jury and defendant were taken from the class. The defendant was on trial for speeding, and I would like to add that the trial ended with a hung jury.

I feel the time spent in these classes was well worth it, if however, I inconvenienced anyone while I was out of my office I would like to apologize for that inconvenience.

I would like to add this point in closing, that no matter how the recent primary election went as far as we are concerned, if we agree or disagree with the outcome, we need the support of every citizen in this county and state if we are going

to make Hondo, Medina County and the State of Texas a good place to live and rear our children. We cannot afford to throw away the talent of even one individual if we are going to keep this a free nation.

Sincerely,
Harold F. Herring,
Justice of the Peace

"The quality of life" has become a favorite area discussion among intellectual commentators. However, they rarely get around to defining just what they regard as better quality in living.

Generally, the pundits imply that something is missing from the kind of life most Americans choose to lead. They consistently imply that less emphasis should be given to material things and more to spiritual values.

When the average person reads or hears exhortations on the quality of life in magazines or on television "think" programs, he is left perplex-

ed. Everyone would like a happier and more enriching life. However, he is not able to disassociate personal well-being from material security and the conveniences provided by modern industry.

A great many people simply are not—and will never be—interested in hiking, bike riding, reading poetry, listening to classical music, and so on. The much maligned television viewer may rightfully consider a putt by Arnold Palmer or a pass by Joe Namath as a supreme work of art.

What may be a good life-style for one person may,

under any circumstance, be considered drudgery for another. We may be thankful for the difference and a society which allows for options.

One of the great values of advertising in a free society is that it provides a complete range of information on options available to the individual who is seeking a better quality of life.

BOARD OF DIRECTORS-MEDINA COUNTY MUSEUM

AUSTIN — Atty. Gen. Crawford C. Martin jarred legislators with an opinion that they are prohibited from hiring not only their own relatives but those of other lawmakers.

The opinion, requested by new House Speaker Rayford Price, thus declared illegal a long-standing practice which, only within the last few weeks, has attracted widespread critical attention.

Meanwhile, State Sen. David Ratliff of Stamford, whose family hiring practices and son-and-daughter job swapping triggered a threatened investigation, said he may resign.

More than 40 legislators freely admit relatives were on the state payroll (usually in the Senate for House members' kinfolds and in the House for the Senate kin) during the last five years. Many of the cases involved nothing more than legislators' children working as pages, but combined salaries of the improperly-hired totalled more than \$120,000 since 1967.

Martin said an article of the penal code forbids a member of one house of the legislature from hiring a relative (within restricted degrees by both blood and marriage) of a member of either house when the employee is paid from public funds.

Lt. Gov. Ben Barnes issued prompt orders that any employee related to a legislator will be dropped from the payroll immediately.

House Speaker Rayford Price said he also plans full cooperation.

With one state representative indicted for allegedly using state postage stamps to buy a pickup truck and another known to have leased furniture for his state office from his own firm, the House administration committee also proposed new limitations on lawmakers' expense accounts.

No New Taxes
Gov. Preston Smith, in a statewide campaign speech via television, threatened to veto any tax bill passed by the legislature in special session this summer.

"I will present a budget that will require no new taxes, and I will use every available authority of the governor's office to insure that such a budget is enacted by the Legislature," said Smith.

Smith claimed he is the only candidate for governor who "can and will insure that taxes will not be higher in 1973."

Financial observers are waiting to see how the governor is going to shave the 1973 budget by an estimated \$150 million to avoid another tax

bill. He may rely on increased federal revenue-sharing or an increasingly-improved revenue picture.

Revenue-Sharing
A federal revenue-sharing bill approved by the U.S. House Ways and Means Committee last week would provide \$202 million a year to Texas cities and counties.

Allocation of the funds would be retroactive to Jan. 1, 1972, if the bill becomes law.

Enthusiasm of some city officials for the revenue-sharing plan was dampened by an apparent proviso that states participating would have to adopt state income taxes or receive a lesser amount than those which do levy taxes on income.

Drought Getting Worse
A Texas climatologist reported spring drought conditions are getting worse over most of Texas.

Agriculture Commissioner John White said the drought already has cost agricultural producers hundreds of thousands of dollars.

There was little rain anywhere except in North Central Texas.

Climatologist Robert Orton said there is a moderate drought in the High Plains, North Central Texas, East Texas, Trans-Pecos, and the Edwards Plateau. The Low Plains and the Upper Coast still are listed in a state of mild drought.

South Central Texas, Southern Texas and the Lower Rio Grande Valley have not entered the mild drought category.

Allowable Stays Up
The Texas oil production allowable for May will stay at 100 per cent due to increasing demands.

A Railroad Commission order last week retained the April maximum after major buyers of crude asked for an increase in output of 83,312 barrels a day or a total for next month of more than 3.6 million barrels.

Ten of the 16 big buyers requested the same amount as April. Five asked an increase, and only one said less oil is needed.

The April 100 per cent figure was the first wide-open allowable since 1948.

Careful study will be continued to prevent waste, Commission Chairman Byron Tunnell said.

New Deadline Fixed
April 30 is a new tax deadline for about 72,000 Texas employers.

Wage reports must be filed by then with Texas Employment Commission for purposes of

unemployment taxes during the first quarter of 1972. Employers have been notified by mail and sent forms and instructions.

Reports must include wages paid and names of employees, along with taxes due. Employers brought under coverage of the Texas Unemployment Compensation Act are mainly those who have one to four employees. New employers receive a tax rate of one per cent, which may scale downward after two years depending on unemployment experience. Some non-profit, charitable and educational organizations are subject only if they have four or more workers.

Courts Speak

The U.S. Supreme Court upheld a Massachusetts law requiring the state's public employees to take a "loyalty oath" that they oppose overthrow of the government by illegal force.

The State Supreme Court in a Tarrant County case upheld minimum filing fee and petition requirements for getting on the Texas primary election ballot as set by Secretary of State Bob Bullock.

The High Court also found the legislature can not exempt non-profit water supply corporations from property taxation. A corporation in Williamson County sought exemption from Leander school district taxes.

Third Court of Civil Appeals held Southwestern Bell Telephone Company owes all the taxes on telephone pole rental payments which it paid under protest — plus more.

Short Snorts

Health department officials urge inoculation of horses against Venezuelan equine encephalomyelitis (VEE). Another outbreak is expected.

Donald Eastland is new chairman of the State Judicial Qualifications Commission; Howard C. Davison of Lubbock is vice-chairman and Robert C. McGinnis of Austin secretary.

The first Texas State Arts and Crafts Fair is scheduled May 31-June 4 in Kerrville, and may attract more than 200 craftsmen and artists.

University of Texas regents awarded a contract for sale of \$10.3 million in state ad valorem tax bonds for UT Arlington.

Public schools will cost nearly \$2.6 billion in 1972-73, and local taxes paid about \$800 million of the total. There were nearly 2.8 million pupils last year.

with students who also appreciate him. As I watched and listened in the background, I shared the band's enthusiasm as they tapped their feet in time. They made lots of wonderful-fine music.

Bill Berger, still a Hondoan even if he now lives in Texas Tea-sipper territory told me, "This is one high school band that I'd consider U of T Longhorn Band material for sure!"

The visit of Chief Fulton Battise and his wife Eva, of the Alabama-Coushatta Indian Reservation, really "brought down the house" and the two stood near the entrance where they were first greeted for perhaps two hours as they chatted with wide-eyed youngsters, passed out autographed color brochures and answered questions.

Small boys were awestricken for a moment. "L he for real?" whispered one to an older brother. "Why, sure, you nut," came the patronizing reply. "He was born an Indian chief, can't you tell?"

Eva Hueser, former Medina Countian with a love for this area, is the artist who painted, and presented to the Museum last year, the valuable painting that is now one of its feature attractions. This year, she painted the portrait of Chief Battise, in the colors of his tribe, and presented it as a gift to him. This she did with only the black and white picture that appeared in issues of the Anvil Herald as model to follow. The Chief and his wife were most impressed and he expressed their appreciation when he spoke to the crowd in The Purple Petticoat Saloon which was part of the recreation center for the day.

Old friends greeted old friends and made new ones. One expressed amazement to see another "out in such weather. How about what it

will do to your arthritis?" The reply, "It never hurts when we get a good rain that we need so badly and besides, how else could I attend this celebration?"

I learned for the first time that Mrs. Robert (Nellie Brucks) Mumme and Mrs. Alvin (Isabel Brucks) Mumme are twin sisters, who cheerfully admit that they will be 77 on May 31st. What a store of happy memories they have!

Arthur Schulte, brother of County Clerk Henry, said he was willing to give Chief Battise credit for the rain and thought it might be a good idea to get in touch with him again the next time drought threatened.

1st PO Thomas Carter, US Navy, and his wife Dorothy, granddaughter of the Robert (Nettie) Kochs, were enjoying the fun with their children, Chuck (3) and Kathy who was a year old Monday. They came all the way from Rhode Island.

Jackie, daughter of former Hondoans Jack and Lois Dowdy, was there with her brand new husband, Edward Shomody. They had been married only the day before and were en route to their home in Arlington from a short honeymoon in Mexico.

Olga (Mrs. Oswald) Sauer of LaCoste, secretary of the Museum Association, was there with her sister, Oswald is temporarily a hospital patient and he was missed. It was he who gave the Museum the old windmill which now serves as a landmark on the grounds.

Alma Sasser, the E. J. Schreiber, and the Bob Winters, all of SA, hailed me and we chatted best could above the

noise. Alma has given the Museum some valuable old books and other items from the Schreiber (D'Hanis) estate.

Among the costumed visitors was petite Dorothy (Mrs. F. J.) DeGroot, with her teenage daughter Jan who is now at least a head taller than her mother. Dorothy might have emerged from the pages of "Gone with the Wind", she was so charming in her flowered cotton print dress and matching bonnet. The dress story needs telling. It had been sent to Laura (Mrs. John) Wentz who decided there was more of her than there was dress. It didn't fit her mother, Mrs. Otto Wiemer, either. "So," said Laura, "I decided it must have been made for Dorothy in the first place." It originally had a very sheer "guimpe" which the new wearer had "lined a bit" when Jan decided it might look too modern instead of old fashioned otherwise.

The "littlest" visitor I saw was Rinda, (three weeks old next Sunday) daughter of Lorenzo and Della Hernandez. Her Daddy works at a Texaco station. Rinda slept contentedly through the whole show. People who came late were disappointed not to have arrived in time for supper. The chicken barbecue was at its best and Sgt. Bill Green hadn't lost his touch with pinto beans. The homemade ice cream "was all before it was enough."

The Country Store almost sold out. One of my purchases was a loaf of homemade oatmeal bread that beats what some folks still call "waspsnest" white bread all hollow! Arts and crafts created much interest.

The bluebonnet painting by Dorothy (Mrs. O. M.) Redus went home with a happy (sealed bid) highest bidder but I failed to get her name. I saw her holding it carefully as the car drove off.

Everywhere lucky bidders were exchanging brags over their purchases. Even the fish pond customers were squealing, "Looky what I got!" The games prize winners compared notes with an envious "You lucky thing, you!"

All in all, it was a great weekend, like the Museum sponsors promised us it would be.

This week

That's all she wrote

by Edna McDade

I've never seen Germany's HANAU, but I can tell you anyhow . . . which is about as far as my prosaic typewriter can go quasi-poetically.

From here on, this is what brought on the above couplet: IRIS BADER, recently returned from a visit to her daughter and family in Germany, brought me a lovely souvenir plate picturing, in color, a modern pleasure resort in that city which was founded in 1303.

The scene is probably along the Main River -- pronounced Mine and also called the Moenus, which passes through several German cities in its 305 mile course, navigable for some 240 miles.

So appreciative of Iris's thoughtfulness am I that I read all about Hanau in my Geographical Dictionary.

While I was pecking out these weekly scattering remarks, I had a call from my good friend LINA (Mrs. Robert) STOLTE, who lives in the Rio Medina area. She said her place had between 5 and 6 inches of rain. For a while, old San Gerónimo Creek gave a reasonable facsimile of the Flood.

When I asked Lina if this had frightened her, she replied with her characteristic cheeriness: "No, it has happened many times and I just imagine I'm in Noah's Ark (like the toy ones we used to receive at Christmas when I was a child) and the water is all gone without having to wait 40 days and 40 nights."

I'm very sure that the Lord loveth such a cheerful philosopher and her philosophy.

Among the many folks who braved the elements to attend our M-Day celebration were the TIP (Yong Ae) PICKTHALLS. I met mother and daughter for the first time and we managed to exchange greetings over the tumult. Little Yolanda Cho was two months old Sunday and her smile was reassuring. I think she liked our M-Day.

At the Courthouse Saturday night, I joined the crowds who waited in the narrow corridor to see who won which office. At midnight I gave up and braved the rain to head home.

With only 18 county precincts to account for, the last to report were three Hondo boxes and the one from Natalia - all of voter-strength importance. They finally made it in the wee small hours of Sunday morning (ask HENRY SCHULTE) and now everybody knows all the answers.

For the winners and losers, cheers and condolences. That's the way the ballot bounces!

I met FRANKLIN and HELEN MUENNINK at the election "wake". They were accompanied by their young son, RONNIE, a McDowell 6th grader whose attention and interest never wavered. He was "seen and not heard".

Ronnie has all the attributes of being a good listener and you can tell from his every pose and gesture that someday he hopes to be a rancher-farmer just like his father. Here is a father-son team who can be counted on to do their best to work together and help this community "hold together" on its way toward insuring the continuing success of our growing agricultural economy.

OREN MOSLEY of Natalia was among the interested watchers of the returns board. When the Barnes trend to third place was posted, Owen laughed and said "I told her so!"

Sensing a husband-wife difference of choice in the race for governor, I put my inquisitive pencil to paper and Oren admitted that they had "voted differently" and he had told DORIS she was just wasting her vote. "Not really," he added, "but I like to tease her."

Note to DORIS: No vote is ever "wasted." The important thing is to follow the dictates of your own choice.

I have seen local cars carrying bumper stickers reading "Week of the Young Child May 14-20" -- a welcome change from the competitive election stickers which can now be relegated to the limbo of forgotten things.

But, shouldn't every week be a "Week of the Young Child"? It takes a continuous 52 such weeks per annum to bring them up in the way they should go and a heap of faith that, when they are old, they will not depart from it!

Historic site marker for Rothe-Rowe house

by Josie Finger

D'HANIS - Medina County has been granted another site marker by the Texas State Historical Committee. The honor has been given the Rothe-Rowe Ranch House which is just off FM 1796, 3.2 miles north of D'Hanis, and, since April 8, 1965, owned by Mr. and Mrs. W. Earl Rowe of San Antonio and D'Hanis. As hosts, they invite the public to an open house on Sunday, May 21, from 10:00 to 5:00 p.m.

Built in 1882 by Louis Rothe, the house is constructed of rock from a quarry on near-by Seco Creek. The Senne Brothers of Steinhilber and Halberdier of Castroville, the carpenters. The dwelling combines classic European lines with typical Texas architecture.

The builder was one of four brothers---Fritz, Henry, Louis, and August---and one sister, Ernestine, later Mrs. Carl Richter. These were the children of Heinrich and Emilia Wurzbach Rothe, a family who emigrated from Bavaria in 1854 and spent their first years in America on the Medina River north of Castroville, in and near the home of her brother, Franz Wurzbach. There the mother died and was buried during their first month in the new land.

During the 1860's the Rothe brothers acquired land adjacent to Fort Lincoln on Rio Seco and started the ranch which by the 1890's, according to A.I. Sowell, embraced some 100,000 acres.

Families of the four brothers all had their first homes here. Henry's home, a four-room rock structure on the river bank, is now used for feed storage and can be seen from the main house. Between these two buildings once stood two others, the first family home and later a new home for the Fritz Rothe family. The brothers operated as partners until 1896 when they divided their holdings with Louis retaining the site of the original ranch headquarters.

Of his twelve children, the youngest son, Oscar, inherited the home and surrounding acreage. Because of failing health he sold the property in 1938 to the late James Amberson of Hondo, from whom Youngs Crook of San

Antonio purchased it in 1964. Later that year the ranch was sold to Mr. Rowe. All the owners made efforts to preserve the house.

The present owner soon started his restoration project on the house. This included removal of plaster on the exterior to expose the original stone, replacing rotting floors with planks the same size as those removed, while preserving all interior walls, windows, doors, the old stairway, and two hand-carved mantelpieces in the large central family room and in the room once used as the "parlor". It was necessary to make changes for the inclusion of storage space as well as for modern kitchen and bathrooms. At the entrance, one still finds the wide dormer double doors and above this the balcony with its iron banister from where the viewer can examine the countryside for miles around.

A foreman's house was built near the entrance gate, while the entire acreage underwent a change of face by the clearing of land, construction of new fences, and repairing of dams. Each year the hunting season is an exciting one for the Rowes when the recreational endeavors of many hunters are added to the usual business of caring for herds of their fine black Angus cattle.

Of additional interest to the tourist are several other features near the ranch house: the famous Woll Road which runs through a gap on the site of Fort Lincoln just south of the property; the old Seco public schoolhouse (late 1800's to 1918) which can be seen on a riverside height near the entrance gateway; the Henry Rothe home already mentioned; a perfectly preserved spring house in the back yard; and the Louis Rothe private cemetery bequeathed to his heirs, in which rest the builder, his wife Mary Ney Rothe, his father, a son, a daughter, and a grandchild.

For the owners of this modern ranch one of the greatest joys is the visit of their friends, and of their daughter Beverly and husband, Reeves Smith, of San Antonio; and, most especial-

ly, the granddaughters Nancy and Ann Smith who bring their friends along for horse-back riding and hunting.

The marker has been placed off FM 1796, 3.2mi North of D'Hanis.

Made of cast aluminum with Swedish steel effect, the marker measures 14 by 24 inches, and is sponsored by Mr. and Mrs. Earl Rowe. The inscription on the marker reads:

ROTHE-ROWE RANCH HOUSE: On land bordering Fort Lincoln (Garrisoned by U. S. Army, 1849-53) and Woll Road (travel Artery, 1840s-80s), owned after 1860 by Fritz Rothe and brothers. Louis Rothe (1843-1921) built this native stone house in 1882. Successive owners have had noted guests, including Gen. Jonathan Wainwright, U. S. A. Recorded Texas Historic Landmark - 1972

Incised on base: Restored 1960s and Preserved by Mr. and Mrs. W. Earl Rowe.

a word about AIR CONDITIONING

It's easy and economical to have **TOTAL COMFORT** in an insulated, electrically heated home via

AIR CONDITIONING

it COOLS

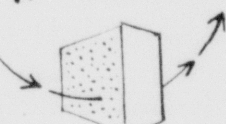

A constant, automatic draft-free circulation of air at any temperature you select.

it DEHUMIDIFIES

It "rings out" the excess moisture from the air to make you more comfortable.

it FILTERS

It "dry cleans" the air of dirt and pollen to help housewives and allergy sufferers.

You can choose CENTRAL UNITS (or) ROOM UNITS

... a heat pump, or ... a heat pump combined with a central heating system, or ... a separate system with its own ducts and cooling unit.

For wall or ceiling. Note: new models mount flush with walls. Adjustable temperature and special control features.

COST?

Surprisingly low. No longer a luxury but one of the best buys you can make.

\$5000--

The QUESTION is--

Should I convert my present home to an **ELECTRIC CLIMATE CONTROL SYSTEM?**

The ANSWER is--

YES-- if your home (like most) can be properly **INSULATED**, then you too, can enjoy **electric comfort** at the same **moderate cost** as in a new home. At the same time it will **maintain** and **increase the VALUE** of your home-- **your single biggest investment!**

Theeth Mytheth know their Mythology

Students in Mrs. Jerome Zinsmeyer's TC Language Arts classes have been studying Mythology. A recent assignment was for the students to illustrate their own Constellation and tell how it came into being.

Here are the original reports of three girls who tell it like they imagine it might have been:

MUSINA
by Susan Fridle

One afternoon Johnny was trying to play his bass horn. Mr. Harrell was helping him and beginning to get quite impatient. It seemed that all Johnny knew how to play was "F." Mr. Harrell was calling him Johnny-one-note. This made Johnny very mad. He started blasting the only note he knew, "F." With

all that hot air, he was soon blowing all the music off the stand. It floated up and up until it reached the thousands of pads of music gods. They looked over all the music.

They really dug "Soul Explosion". They decided that was their kind of music. They decided to keep that music.

So, they gave it its place in the sky where it could entertain them always, and so we have Musina, God of music.

WATCHFUL OWL
by Carol Schmidt

Once upon a night, at a football game I was watching the Hondo Owls play the Uvalde Coyotes. The Owls had their mascot, Hooter, there.

Hooter was an owl that flew very high. In the last quarter, Hooter was flying around and the Hondo Owls caught an interception and ran all the way for a touchdown. Hooter went wild, flying up and then back down. Once he flew up and he flew, flew, and even flew higher. When he reached

the top of the sky, Electro, God of Lightning, struck him with a strong bolt of lightning and froze him stone dead in the position of watching over the Hondo Owls.

THE RAIN POURETH
by Teresa Zert

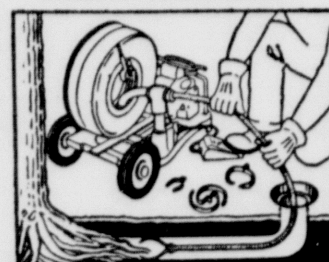

Back, back, long ago, high up in the sky, Zeus, greatest God of all, told Poureth, his servant and worker, to draw him a hot bath.

Now Poureth was a lazy sort of fellow. His only reason for being at Olympus was because he served Zeus. When Poureth began to fill the tub, with buckets of water, he grew tired, so he made a ditch to run the water to the tub. Now all Poureth had to do was sit and wait. So Poureth laid down under the beautiful Treecia tree and presently he fell asleep.

Now while Poureth was sleeping, the tub grew full, and fuller, and then it overflowed, and the drops fell on the earth. Down on earth the people were very happy and set up a great rejoicing.

Presently Poureth awoke and found Zeus very angry at him for letting the water overflow. He grew so angry thunder came when he spoke, and lightning when he moved. Clouds covered the sky and a tremendous storm occurred. Later in time this slogan came into being: "When it raineth, it Poureth."

State Clarifies Sales Tax Exemptions for Agriculture

Robert S. Calvert, comptroller of public accounts for the State of Texas, has issued a ruling (No. 95-0.13) clarifying sales tax status on items pertaining to agriculture, animal life, feed, seed, plants and fertilizer. Effective date was March 13.

Below is the text of the ruling:

Persons engaged in the business of selling tangible personal property to those engaged in agricultural pursuits in the State of Texas shall be required to collect the limited sales and use tax. However, there are specifically exempted from these taxes the sale, use or other consumption of:

(1) Any form of animal life of a kind, the products of which ordinarily constitute food for human consumption. Horses, mules, and work animals.

(2) Feed for farm and ranch animals and for animals which are held for sale in the regular course of business.

(3) Seeds and annual plants the products of which either (a) ordinarily constitute food for

human consumption or (b) are to be sold in the regular course of business.

(4) Fungicides, insecticides herbicides defoliates and desiccants exclusively used or employed on farms or ranches in the production of food for human consumption, feed for any form of animal life or other agricultural products to be sold in the regular course of business. However when these particular items are used in commercial storage facilities or other storage facilities which are not located on the farm or ranch the exemption is lost, and the tax must be collected on the sale of such items.

(5) Fertilizer.

(6) Machinery or equipment exclusively used or employed on farms or ranches in the production of food for human consumption, production of grass, the building or maintaining of roads and water facilities, feed for any form of animal life, or other agricultural products to be sold in the regular course of business.

This provision must be strictly interpreted and any use whatsoever other than the use on farms and ranches as outlined above will cause the machinery or equipment to become taxable.

The term equipment shall not include expendable supplies such as hand tools, grease, lubricants and workclothes. Repair or replacement parts which are not specifically designed for farm machinery or farm equipment are also excluded. Tractor tires

are exempt as equipment but automobile tires and truck tires are not exempt since they are not designed for equipment to be exclusively used on a farm or ranch. Items such as washers and bolts or building materials such as fence posts, wire, nails, and lumber are not to be classified as farm or ranch equipment.

Pre-fabricated or portable items such as fences, chutes, gates, storage facilities, sheds and ranch buildings to be used exclusively on a farm or ranch are exempt under the term farm and ranch equipment.

Machinery or equipment includes those items purchased to be assembled into a machine or a piece of equipment such as parts of a pumping system or unit to be assembled at the well-site or sections of pipe designed to be fitted into a portable irrigation system.

Young Farmers set Tuesday program

Animal Health will be the subject of a program next Tuesday night, May 16, at the monthly meeting of the Hondo Young Farmer Chapter at the City Park.

This program to begin at 8 p.m., will feature representatives of large animal vaccine laboratories and chemical companies in San Antonio. They plan to show a color film "Disease, The Unhung Rustler" and demonstrate several methods of disease control in livestock. Door prizes will be given away. All interested persons are invited to hear this program.

Prior to the program, a

tamale and chili supper will be served at 7:30. Graduating seniors from the Hondo FFA Chapter will be invited guests of the Hondo Young Farmers for the meal and program.

A short business meeting, after the program, will discuss the upcoming Area VII Field Day in Fredericksburg on Saturday, June 24. Representatives from Fredericksburg are expected to attend and will discuss the planned Activities.

A family picnic and fish-fry, scheduled for Sunday afternoon, June 11, will also be discussed.

Crossing gates shown

Hopes are that Hondo can eventually obtain crossing gates like these at railway crossings in the City. B.M. Flohr, SP superintendent, described the gates in a recent City Council meeting and said total cost per crossing would be about \$29,000. His company proposed to pay about \$19,000 if the City of Hondo would come up with

the other \$8,000 plus. He also told the Council that the State has a program which will pay some 90 percent of the cost, and if it ever gets additional funds Hondo might go this route. The decision was to put in an application and wait for this means of solving the problem. (Photos Courtesy SP Transportation Company)

STATEMENT BY JOHN POERNER, Representative Elect of the 45th legislative District, Democratic Primary, May 6th, 1972.

"I am overjoyed to be the Democratic nominee for the Texas House, District 45. I am most appreciative of the vote of confidence from my old counties of Medina and Frio, where I received about 75% of the vote.

My opponent's campaign was based on slander, lies and half-truths and I am very gratified to see that I can win an election without using one derogatory word about my opponent. It certainly renews my faith in people and particularly that most law abiding citizens do not believe the lies that are spread during a campaign."

D'Hanis news

Mary Belle Zerr

Mr. and Mrs. Joe W.
Roth and Mr. and Mrs. Jack
Zinsmeyer accompanied by
Miss Janet Parsons of Hondo
spent the weekend at College
Station as the house guests of
Tom and Larry Roth, students
at Texas A&M University.
While there, they attend-
ed the Final Review of the
Texas A&M Corp of Cadets.
Charlie, son of the Joe Rother
and John, son of the Jack
Zinsmeyers, are members of
the Corps and participated in
the Review. The Myles
Weynands of Hondo were also
present for the Review. Their
son, Mike is also a member
of the Corps.

The Rother and Zinsmeyers
also had a brief visit with
Mr. and Mrs. David McGeehe
of College Station.

Mrs. Olivia Nester, David
and Annette spent Sunday in
Austin where they visited the
James Kuehne family. En-
route home, at San Marcos,
they visited with Miss Sherrill
Moehring and Henry M.
Nester.

Mr. and Mrs. James Ruby
of Houston were weekend
guests in the W. A. Nehr
home.

Mr. and Mrs. Melvin Wey-
nand and daughters, Carolyn
and Dolores spent the week-
end in Bryan as the guests of
the Bernard Weynands. They
attended the graduation ex-
ercises of Texas A&M Univer-
sity on Saturday, May 6th,

at which time their son, Ber-
nard, received his Bachelors
Degree in Wildlife Science.
Others who joined them were
the Glenn Weynands of Hou-
ston, Mrs. Ruben Land, her
daughter, and Mrs. Mata Her-
bert, all of Fredericksburg.
The D'Hanis Weynands also
visited Mr. and Mrs. Bill
Freudenberg and son and the
W. W. Webbs of Bryan.
Mr. and Mrs. Charles
Mussman returned to their
Big Spring home after a
week's visit with his parents,
the Arnold Mussmans. Arnold
is recuperating satisfactorily
at his home following surgery
last week at Medina Memorial
Hospital in Hondo.

Miss Josie Guly has return-
ed to her home in Ingram
after spending the past week
with Mr. and Mrs. Oscar
Nester. While here the
Nesters hosted a barbecue
dinner in her honor. Present
were Mr. and Mrs. William
Lutz, Mr. and Mrs. Maurice
Nester, Mr. and Mrs. Arthur
Lutz, Norman, Kenny and
Shirley, the Billy Allen
family, and Mr. and Mrs.
Garrett Guly from Natalia.

Owls smack Devine

Hondo's Owls, playing the
part of spoilers, threw the
District 28-AA baseball race
into shambles, Thursday,
May 4 with an upset 6-4 win
over the once-beaten Devine
Warhorses.

The Owls got two home
runs from Kenny Waynard
and Johnny Abrego, with
Waynard's coming in the se-
cond inning and Abrego's
blast coming in the seventh.

Robert Blackshear picked
up the win while Mike Dennis
absorbed the loss for Devine.

Summer rec project to open June 12

The summer recreation program, which was approved by the Hondo City Council at its last meeting, is scheduled for June 12 through July 28.

Written applications are now being accepted for director and three assistants. These may be made to any of the directors, who are George Brucks, Chairman; Mrs. Reno Stanga, Mrs. Glen McWilliams, Mrs. Fred Bader and John McAnelly. Deadline for applications is May 20.

The director is to be in charge of the over-all program. Assistants are in charge of Arts and Crafts and assist in outside activities.

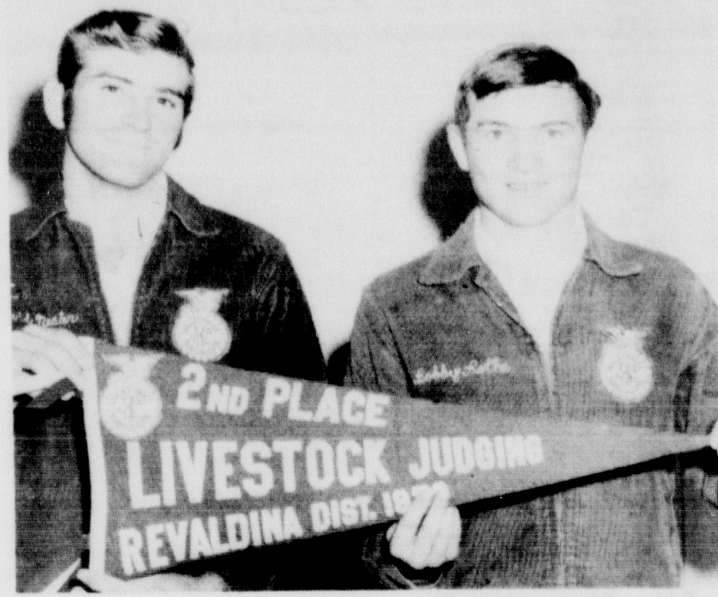

Daily sessions will be held Monday through Friday from

8:00 to 11:30 a. m.

The program is open to any child who has completed at least one year in school. It is planned to give local children the benefit of a supervised play period during the summer vacation.

OWLS END SEASON BY DEFEATING POTEET AGGIES

The Hondo Owls closed their 1972 baseball season on a winning note Monday night with a come-from-behind 5-2 win over the Poteet Aggies in district play. Monday's win gave the Owls a 7-5 district mark and an overall record of 10-7 for 1972.

Take second place

Winning second place in the Livestock Judging contest held by the Revaldina District in Uvalde were members of the D'Hanis FFA Chapter. Two of them hold the banner, left to right: David Nester, Bobby J. Rothe, David Santos is not pictured. (Photo By Father Victor)

Ladies compete in golf tourney

The first annual Ross Houston Golf Tournament was held Tuesday in conjunction with the regular weekly Ladies Day Tournament.

First and second place winners in the Flag Contest were Sue Ann Graff and Ann Jones. Low Gross scorer was Ardye Vincent, with Gladys Williams low net scorer, and Clare Westbrook the low putter.

After the tournament, all participants enjoyed a buffet luncheon in the lounge of the Pro Shop.

Guests at the luncheon were Virgil Krenmueller and the tournament sponsor, Ross Houston, who presented each of the ladies present with a golf ball as a special gift.

Tournament action slated at the Hondo Golf Course

Two action packed golf tournaments are coming up this weekend at the Hondo Golf Course.

A Pro-Am event is slated for Saturday, May 13 and a Scotch Foursome will hold forth on Sunday, May 14.

Saturday's event is a handicap tournament with a maximum handicap of 18 allowed.

It will begin with a shotgun start at 2 p. m.

Contestants can make their own foursome and their deadline for entering is 1 p. m. Saturday.

Sunday's Scotch Foursome has a shotgun start at 1:30 p. m. with a deadline entry of

12:30 p. m. It is limited to 72 players.

The next action after these two tournaments will be a men and women Pro-Am on Tuesday, June 6.

Limited to 72 players the event has a deadline at 11:30 a. m. on the day of the tournament.

Entry fees and handicaps on all tournaments should be sent to Virgil Krenmueller, Hondo Golf Course, Hondo, Texas 78861 or call 426-8825.

Rothe signs as new coach

Hondo High School has a new baseball coach effective in August, and the Board of Trustees didn't go to far to get him.

Tuesday night the Board hired Walter Rothe of D'Hanis as the new baseball coach replacing James Bohls who has taken the reins as head football coach.

Walt, the son of Mr. and Mrs. Bonnard Rothe, played for the University of Texas Longhorns and in 1971, after hitting a torrid .485 for the

year, was named Southwest Conference Baseball player of the year by the Associated Press.

On June 10, 1971 he signed a professional contract with the Montreal Expos and played one year with a farm team of that National League franchise.

The new coach will teach math and P. E.; and he will be joined in the Hondo teaching ranks by his wife, Lindy, who will teach in the McDowell School.

Rally sinks Giants

The Hondo Eagles struggled to come from behind a 5-2 Fredericksburg Giant lead to a 10-5 decision in a baseball game played Sunday at Lady Bird Johnson Park.

The Eagles exploded for a six-run rally in the ninth to gain their first Hill Country League win.

Devine whips Panthers

Devine Warhorses clinched a share of the District 28-AA baseball crown Tuesday afternoon with a 4-2 win over Medina Valley at Castroville. The win gives Devine a 10-2 District record with the Panthers at 9-2.

Medina Valley will play a make-up game in Pearsall Thursday night (tonight) and if they win that and tie the Panthers for the crown the two teams will meet in a playoff game on the Hondo

diamond at 4:30 p. m. Friday.

In Tuesday's game Bill Dennis tossed a 4-hitter and picked up his 13th win of the season for Devine. Dennis also got two of his teams five hits and scored two runs.

The Panthers took the lead in the first inning with two runs but Devine rallied for three runs in the top of the third to clinch the win. Mike Groff took the loss for Medina Valley.

Wee Arcos and Ray Galindo opened the ninth with singles, pinch-hitter Mario Garcia doubled to drive in Arcos with the tying run.

Milt Faseler drew a walk, then Johnny Miranda singled scoring pinch-runner Joe Santos with the go-ahead run.

Then Eagle slugging first-baseman Rusty Beard unloaded a bases loaded homer into right-center field to ice the game for his younger brother (pitcher) Dave Beard.

The leaky Eagle defense kept the Hondo fans and Eagle pitcher Dave Beard on edge until they finally got together and played ball like they are capable of playing.

Workhorse pitcher Dave Beard went the route to gain credit for the win. Beard gave up eight hits, struck out three batters. Only two of the Giants' runs were earned. All three runs in the fifth were unearned.

Milt Faseler, Johnny Miranda, Rusty Beard, Vee Arcos and Ray Galindo each collected two hits apiece.

VICTOR ELECTRONIC CALCULATORS

As advertised in Time, Business Week, Wall Street Journal and other business magazines.

Consider the wealth of advantages the Victor 1200 Electronic Calculator offers you.

Advantages like easy to read numbers in a Uni-Plane display. Like a conveniently sequenced keyboard so fingers can work faster (with less chance of error). Like automatic constants. And a foolproof decimal system that lets you round off from as many as six positions.

Where you might forget, our Victor Series 1200 remembers with a built-in memory bank to

accumulate your totals. All this, and more, in a compact calculator that weighs in at 6 1/2 pounds (10 x 11 1/2 x 5 inches).

How did we get such a big brain into such a small body? Call it the happy result of millions of R & D dollars and years of experience. We've been in the figuring machine business more than 52 years. Right here in Chicago, Illinois, U.S.A. (And we've got factory trained sales and service outlets covering every county in the country.)

When you add up all the features, the Victor Series 1200 totals out to a lot more machine for the money (only \$395) than anything else on the market at the price.
